

PCD On The Move Virtual Conference August 5 and August 10, 2021

CALL FOR ABSTRACTS and CASE REPORTS

SCIENTIFIC RESEARCH ABSTRACTS

Abstract content (basic, translational or clinical research)

- A descriptive title, list of authors and institutions
- An introduction/rational section
- A methods section
- A results section
- Conclusions of the study
- Limit 500 words (exclusive of title, authors and institution)

Abstract presentation

- Eight research abstracts will be selected for pre-recorded 3-minute oral presentations followed by a live 2-minute question and answer period. The remaining accepted abstracts will be presented as virtual posters. Presenters selected for oral presentations are welcome to also present their abstracts as virtual posters.
- The person assigned as the presenting author will be expected to give the oral presentation and/or present the virtual poster.
- Authors presenting a virtual poster will be expected to provide their poster (pdf file) and a 3-5 minute video (mp4 file; maximum 5 minute supported) describing the poster for upload onto the conference website. The video should take the viewer through the poster as though it were being presented in-person. Use a simple layout with few panels. The text should be legible on a typical desk top monitor. File sizes cannot exceed 50MB.
- Awards (\$250) will be provided to the top two research abstracts.

CASE REPORT ABSTRACTS

Abstract content

- Case submissions should be designed to teach key points about primary ciliary dyskinesia presentation and/or management. Reports concerning unique features of PCD (otolaryngologic, reproductive, laterality, genetic) aspects of PCD are encouraged.
- Case reports must contain:
 - A descriptive title of the case, list of authors and institutions
 - The name of the mentor if submitted by a fellow; additional individuals contributing to significant portions of the case may be included
 - An introduction
 - A description of the case including details of how the diagnosis of PCD was made (e.g., TEM, genetics, HSVM, immunofluorescence);
 - Discussion points, with regards to the novelty and importance of the case.

- Limit 500 words (exclusive of title, authors and institution)
- Priority for oral presentations will be given to postdoctoral fellows, trainees and members of the PCD multidisciplinary team (genetic counselors, respiratory therapist, research coordinators, etc.).

Abstract presentation

- Five case reports will be selected for a recorded 8-minute oral presentation and a live 2-minute question and answer period. The remaining accepted case report abstracts will be presented as recorded virtual posters. Presenters selected for oral presentations are welcome to also present their abstracts virtual posters.
- The person assigned as the presenting author will be expected to give the oral presentation and/or present the virtual poster.
- Authors presenting a virtual poster will be expected to provide their poster (pdf file) and a 3-5 minute video (mp4 file; maximum 5 minute supported) describing the poster for upload onto the conference website. The video should take the viewer through the poster as though it were being presented in-person. Use a simple layout with few panels. The text should be legible on a typical desk top monitor. File sizes cannot exceed 50MB.
- Awards (\$250) will be provided to the top two case reports.

POSTER GUIDELINES

Posters will be displayed on a private conference website accessible to attendees. For consistency, it is recommended that posters be formatted to the following dimensions: 48" wide x 36" high (122 cm w x 91cm h). Use a simple layout with few panels, avoid small font, the text should be legible on a typical desk top monitor.

SUBMISSION

Abstracts are to be submitted in Microsoft Word Format to the PCD Foundation c/o Lynn Ehrne at lehrne@pcdfoundation.org

The body of the submission email must contain the following information:

- Name of presenting author
- Address, email address and phone number of presenting author
- Title of abstract

For questions regarding research abstracts, contact Dr. Lance Lee (lance.lee@sanfordhealth.org) or Dr. Anne Griffiths (griffiths@crccs.com).

For questions regarding the case presentations, contact Dr. Shailendra Das (sxdas@texaschildrens.org) or Dr. Terri Laguna (tlaguna@luriechildrens.org).

AWARDS

The top two research abstracts and the top two case presentations will each receive a \$250 award. Awards will be based on both scientific content and presentation.

DEADLINE

June 15, 2021
5:00 PM, Eastern Time
